

**Directions to the Capital Region of Denmark test site at Collstrop, Hillerød  
Jespervej 309, DK-3480 Fredensborg**

**General access:**

By car: Use the big parking lot belonging to the “Eghjorten” nature school, Jespervej 309, marked by the big **P** on the map on next page. Walk up to Eghjorten and then south along the forest road to the container site.

By public transportation: Bus line 307 from Hillerød Station stops next to the parking lot. The stop name is “Hillerødvej”. Please consult the public transportation guide [www.rejseplanen.dk](http://www.rejseplanen.dk) for directions and timetables.

**For project owners driving to the container site:**

The container site can be reached by the north-south running forest road, but to avoid bothering our friends at the nature school, we generally ask you to approach the site from the south. You drive up the forest road from Jespervej at the red arrow on the map.

There is a chain barrier across the forest road just north of Jespervej. The barrier is locked by a former Frederiksborg County padlock. The gate to the container site is locked by a similar padlock. If you do not have a Frederiksborg County key, you can find one in a key box on the container site gate. The key box is combination locked. Please contact the region’s site administrator for the combination. Remember to return the key after use.
